## Report of Independent Auditors

December 12, 2001

The Mayor, City Council, Comptroller and  
Board of Estimates of the City of Baltimore, Maryland

We have jointly audited the accompanying balance sheet of the Water Utility Fund, an enterprise fund of the City of Baltimore, Maryland, as of June 30, 2001, and the related statements of revenues, expenses and changes in equity and cash flows for the year then ended. These financial statements are the responsibility of the City of Baltimore, Maryland's management. Our responsibility is to express an opinion on these financial statements based on our audit. The financial statements of the Water Utility Fund for the year ended June 30, 2000, were jointly audited by other auditors, including the City of Baltimore, Department of Audits, whose report dated December 22, 2000, expressed an unqualified opinion on those statements.

We conducted our audit in accordance with auditing standards generally accepted in the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinion.

As discussed in Note 1, the financial statements present only the Water Utility Fund of the City of Baltimore, Maryland, and are not intended to present fairly the financial position of the City of Baltimore, Maryland, and the results of its operations and the cash flows of its proprietary fund types and nonexpendable trust funds in conformity with accounting principles generally accepted in the United States.

In our opinion, the fiscal year 2001 financial statements referred to above present fairly, in all material respects, the financial position of the Water Utility Fund of the City of Baltimore, Maryland, as of June 30, 2001, and the results of its operations and its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States.

Yovonda D. Brooks, CPA  
City Auditor  
Department of Audits

CITY OF BALTIMORE  
WATER UTILITY FUND  
NOTES TO FINANCIAL STATEMENTS

1. Description of the Utility:

The Water Utility (the Utility) is a separate utility within the Bureau of Water and Waste Water, which is one of the four bureaus in the City of Baltimore, Maryland's Department of Public Works. In November 1978, the voters approved a Charter Amendment establishing the Utility as a separate enterprise and required it to be financially self-sustaining and operated without profit or loss to the other funds or programs of Baltimore City (the City).

These financial statements are only of the Utility, an enterprise fund, and are not intended to present the financial position of the City, and the results of its operations and the cash flows of its proprietary fund types and nonexpendable trust funds in conformity with accounting principles generally accepted in the United States (GAAP).

2. Summary of Significant Accounting Policies:

The accounting and financial reporting policies of the Utility conform to GAAP and reporting standards as promulgated by the Governmental Accounting Standards Board (GASB) for proprietary funds.

GAAP allows governments to choose either not to implement, in proprietary fund types, pronouncements of the Financial Accounting Standards Board (FASB) issued after November 30, 1989, unless those pronouncements are specifically adopted by GASB (provided that this is applied on a consistent basis) or to continue to follow FASB standards for these fund types. The City has elected not to implement FASB pronouncements issued after that date for its proprietary fund types.

Basis of Accounting:

The financial statements have been prepared on the accrual basis of accounting whereby revenues are recorded at the time they are earned and expenses are recorded when incurred.

Cash and Cash Equivalents:

Cash and cash equivalents include amounts in demand deposits, as well as short-term investments with a maturity date within three months of the date acquired by the Utility.

Investments:

Investments are reported at fair value. Investments with maturities of less than one year from purchase date are reported at cost which approximates fair value. Securities traded on national exchanges are valued at the last reported sales price.

### Inventories:

Inventories are stated at cost, using the moving average cost method.

### Unbilled Water Utility User Charges:

Unbilled water user charges are estimated and accrued at year-end.

### Property, Plant and Equipment:

Property, plant and equipment are stated at cost. Depreciation is computed using the straight-line method over the estimated useful lives, as follows:

Buildings.....	50 years
Improvements.....	20-50 years
Equipment.....	2-25 years
Mobile Equipment....	5-10 years

Depreciation recognized on assets acquired or constructed with contributed capital is closed to contributed capital.

### Amortization:

Bond issuance costs are amortized over the life of the issue using the straight-line method, the effect of which is not materially different than under the effective interest method. Gains and losses on the early extinguishment of debt are amortized over the shorter of the life of the new or old debt.

### Sick, Vacation and Personal Leave:

Employees earn one day of sick leave for each completed month of service; there is no limitation on the number of sick leave days that may be accumulated. A portion of unused sick leave earned annually during each twelve-month period may be converted to cash for a maximum of three days, computed on an attendance formula. Upon retirement with pension benefits, or termination of employment after completion of twenty or more years of service without pension benefits, employees receive one day's pay for every four sick leave days accumulated and unused as of the date of separation; under any other conditions of separation, unused sick leave is forfeited. At June 30, 2001, it is estimated that accumulated non-vested sick leave for the Utility approximated \$3,888,000. Sick leave benefit expenses are not recorded until paid, except that vested unused sick leave for employees with 20 or more years of service is recorded when leave is earned.

Employees can accumulate a maximum of 224 vacation and personal leave days depending upon length of service, which may be taken either through time off or carried until paid upon termination or retirement. Accumulated vacation and personal leave expenses are recorded when leave is earned.

The total vacation, personal leave and vested unused sick leave recorded as a liability at June 30, 2001 and 2000 is \$3,760,000 and \$3,373,000, respectively.

3. Cash and Cash Equivalents:

The Utility participates in the City's pooled cash account. At June 30, 2001 and 2000, the Utility's share of the City's pooled cash account, including both restricted and unrestricted cash, was \$12,471,000 and \$8,431,000, respectively. All of the City's cash deposits are either covered by the Federal Deposit Insurance Corporation (FDIC) or collateralized by securities held in the name of the City by the City's agent.

In accordance with state law, the City is authorized to invest in direct or indirect obligations of the U.S. government, certificates of deposit, repurchase agreements and related mutual funds. City policy requires that securities underlying repurchase agreements must have a market value of at least 100% of the cost of the repurchase agreement and the City takes possession of the securities when the repurchase agreement's maturity is over five days. Management believes the City has complied with this policy throughout the year.

Investments at June 30, 2001 and 2000 are summarized below. Investments represented by specific identifiable investment securities are classified as to credit risk by the three categories below:

- Category 1 - Insured or registered, or securities held by the City or its agent in the City's name.
- Category 2 - Uninsured and unregistered, with securities held by the counterparty's trust department or agent in the City's name.
- Category 3 - Uninsured and unregistered, with securities held by the counterparty or by its trust department or agent but not in the City's name.

	(Expressed in Thousands)		
	<u>Category</u>		<u>Carrying</u>
	<u>1</u>	<u>2</u>	<u>Value</u>
<u>2001:</u>			
Repurchase agreements.....	\$19,039	\$ -	\$19,039
U.S. Treasury and Agencies.....	38	-	38
	<u>\$19,077</u>	<u>\$ -</u>	<u>19,077</u>
Mutual funds.....			<u>19,447</u>
			<u>\$38,524</u>
	<u>Category</u>		<u>Carrying</u>
	<u>1</u>	<u>2</u>	<u>Value</u>
<u>2000:</u>			
Repurchase agreements.....	\$ -	\$32,600	\$ 32,600
U.S. Treasury and Agencies.....	9,284	-	9,284
	<u>\$9,284</u>	<u>\$32,600</u>	<u>41,884</u>
Mutual funds.....			<u>8,715</u>
			<u>\$50,599</u>

4. Restricted Assets:

Restricted assets consist of resources that are legally obligated for the acquisition and improvement of capital facilities and revenue bond repayment requirements. Restricted assets at June 30 are as follows (amounts expressed in thousands):

	<u>2001</u>	<u>2000</u>
City pooled cash.....	\$ 3,117	\$2,526
Cash equivalents.....	6,120	8,714
Investments.....	32,404	41,885
Accounts receivable.....	8,146	8,074
Due from other funds.....	<u>11,260</u>	<u>2,416</u>
Total.....	<u>\$61,047</u>	<u>\$63,614</u>

5. Allowance for Doubtful Accounts:

Accounts receivable are shown net of a \$1,080,000 allowance for each year presented.

6. Property, Plant and Equipment:

The costs of property, plant and equipment and the related accumulated depreciation at June 30, are as follows:

	<u>(Expressed in Thousands)</u>	
	<u>2001</u>	<u>2000</u>
Land.....	\$ 12,232	\$ 12,232
Buildings and improvements.....	358,916	358,916
Equipment.....	<u>48,330</u>	<u>47,511</u>
	419,478	418,659
Less: Accumulated depreciation.....	<u>273,129</u>	<u>265,913</u>
	146,349	152,746
Construction in progress.....	<u>294,022</u>	<u>253,547</u>
Total.....	<u>\$440,371</u>	<u>\$406,293</u>

Interest is capitalized on assets acquired with tax-exempt debt. The amount of interest to be capitalized is calculated by offsetting interest incurred from the date of the borrowing until completion of the project, with interest earned on invested proceeds over the same

period. During fiscal years 2001 and 2000, interest of \$5,716,000 and \$5,823,000, respectively (net of interest income of \$1,494,000 and \$1,247,000, respectively), was capitalized.

At June 30, 2001, the Utility had outstanding commitments for construction of \$25,091,000.

7. Debt (Other Than Revenue Bonds):

The Constitution of Maryland requires a three-step procedure for the creation of debt by the City of Baltimore:

- Act of the General Assembly of Maryland or resolution of the majority of Baltimore City delegates
- Ordinance of the Mayor and City Council of Baltimore
- Ratification by the voters of the City of Baltimore

A summary of outstanding debt (other than revenue bonds) applicable to the Utility (amounts expressed in thousands) as of June 30, 2001 and 2000 is as follows:

	<u>2001</u>	<u>2000</u>
General obligation bonds	<u>\$1,693</u>	<u>\$2,034</u>

The general obligation bonds bear interest at rates ranging from 4.7% to 9.0% and mature serially through 2011.

The following is a schedule of the principal and interest payments (amounts expressed in thousands) required as of June 30, 2001 to service the above debt payable by the Utility until maturity:

<u>Year ending June 30,</u>	<u>General Obligation</u>	
	<u>Bonds</u>	
	<u>Principal</u>	<u>Interest</u>
2002.....	\$ 284	\$ 61
2003.....	313	40
2004.....	86	26
2005.....	139	18
2006.....	173	6
2007 and thereafter.....	<u>698</u>	<u>498</u>
Total.....	<u>\$1,693</u>	<u>\$649</u>

8. Revenue Bonds:

The City has issued revenue bonds and revenue bond anticipation notes, the proceeds of which were used to provide funds for capital improvements of the Utility. Assets with a carrying value of \$25,875,000 at June 30, 2001, and certain revenues of the Utility are pledged as collateral for the bonds and notes. Bonds and notes outstanding (amounts expressed in thousands) as of June 30 consist of:

	<u>2001</u>	<u>2000</u>
Serial bonds series 1993-A maturing in annual installments from \$1,430,000 to \$2,125,000 from July 1, 2001 through July 1, 2008, with interest ranging from 4.5% to 5.5%, payable semiannually.....	\$ 14,320	\$ 15,750

	217,071	205,375
Less unamortized charges.....	<u>824</u>	<u>1,099</u>
	<u>\$216,247</u>	<u>\$204,276</u>

The term bonds series 1993-A due July 1, 2013, are subject to mandatory redemption at par prior to maturity by operation of a sinking fund on or after July 1, 2009, at annual principal amounts ranging from \$1,100,000 to \$1,350,000. The term bonds series 1993-A due July 1, 2020, are subject to mandatory redemption at par prior to maturity by operation of a sinking fund on or after July 1, 2014, at annual principal amounts ranging from \$1,450,000 to \$2,000,000. The term bonds series 1994-A due July 1, 2015, are subject to mandatory redemption at par prior to maturity by operation of a sinking fund on or after July 1, 2010, at annual principal amounts ranging from \$895,000 to \$1,200,000. The term bonds series 1994-A, due July 1, 2024, are subject to mandatory redemption at par prior to maturity by operation of a sinking fund on or after July 1, 2016, at annual principal amounts ranging from \$1,265,000 to \$6,320,000. The term bonds series 1996-A due July 1, 2015, are subject to mandatory redemption at par prior to maturity by operation of a sinking fund on or after July 1, 2010, at annual principal amounts ranging from \$1,130,000 to \$1,500,000. The term bonds series 1996-A due July 1, 2026, are subject to mandatory redemption at par prior to maturity by operation of a sinking fund on or after July 1, 2016, at annual principal amounts ranging from \$1,585,000 to \$2,710,000. The term bonds series 1998-A due July 1, 2015, are subject to mandatory redemption at par prior to maturity by operation of a sinking fund on or after July 1, 2013, at annual principal amounts ranging from \$875,000 to \$970,000. The term bonds series 1998-A due July 1, 2018, are subject to mandatory redemption at par prior to maturity by operation of a sinking fund on or after July 1, 2016, at annual principal

amounts ranging from \$1,020,000 to \$1,125,000. The term bonds series 1998-A due July 1, 2028, are subject to mandatory redemption at par prior to maturity by operation of a sinking fund on or after July 1, 2019, at annual principal amounts ranging from \$1,185,000 to \$1,835,000. The term bond series 2000-A due July 1, 2030, are subject to mandatory redemption at par prior to maturity by operation of a sinking fund on or after July 1, 2022, at annual principal amounts ranging from \$1,750,000 to \$2,735,000.

The serial bonds series 1994-A are subject to redemption prior to maturity beginning on and after July 1, 2004, at redemption prices ranging from 102% to 100% of the principal amount. The serial bonds series 1996-A are subject to redemption prior to maturity beginning on and after July 1, 2006, at redemption prices ranging from 101% to 100% of the principal amount. The serial bond series 1998-A are subject to redemption prior to maturity beginning on and after July 1, 2008, at redemption prices ranging from 101% to 100% of the principal amount. The serial bond series 2000-A are subject to redemption prior to maturity beginning on and after July 1, 2010, at par plus accrued interest.

Principal maturities and interest (amounts expressed in thousands) of revenue bonds are as follows:

<u>Year ending June 30,</u>	<u>Principal</u>	<u>Interest</u>
2002.....	\$ 3,860	\$ 10,737
2003.....	4,090	10,552
2004.....	19,181	10,354
2005.....	4,495	10,142
2006.....	4,700	9,917
2007 and thereafter.....	<u>180,745</u>	<u>122,862</u>
	<u>\$217,071</u>	<u>\$174,564</u>

In prior years, the Utility also defeased revenue bonds by placing the proceeds of new debt issues in an irrevocable trust to provide for all future debt service payments on the old debt. Accordingly, the trust account assets and the liability for the defeased debt are not included in the Utility's financial statements. At June 30, 2001, \$70,945,000 of such debt outstanding is considered defeased.

The Utility has various revenue bond covenants that generally require the Utility to maintain rates sufficient to meet the operating requirements of the Utility and an operating reserve as defined in the revenue bond indentures. As of June 30, 2001, the rate requirements were met, and management believes the Utility is in compliance with all significant requirements of the indentures.

#### 9. Retirement Plan:

Classified employees of the Utility are required to join the City of Baltimore's Employees' Retirement System (ERS). The ERS is a cost sharing multiple-employer defined benefit pension plan administered by the City of Baltimore Retirement System. The ERS provides retirement, disability and death benefits to plan members and

beneficiaries. The plan is managed by a Board of Trustees in accordance with Article 22 of the Baltimore City Code. Plan benefits may be amended only by the City Council. The Utility's share of contributions to the plan were \$936,000 in 2001, \$1,016,000 in 2000 and \$1,013,000 in 1999. The Utility contributed 100% of the required contribution each of the three years. ERS issues a publicly available financial report that may be obtained by writing to the City of Baltimore Retirement Systems, Room 640 City Hall, 100 N. Holliday Street, Baltimore, MD 21202.

10. Postemployment Benefits:

City administrative policy provides that certain postemployment benefits, other than pension benefits, be provided to all employees of the Utility. These benefits include certain health care and life insurance benefits. All employees who retire are eligible to receive these benefits. Such benefits are accounted for on a cash basis so that payments during the current year represent benefit coverage for currently retired employees or their beneficiaries. During fiscal years 2001 and 2000, the Utility's share of the City postemployment benefit payments were \$2,457,000 and \$2,093,000, respectively.

11. Risk Management:

The Utility participates in the City's risk management program. The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. During fiscal year 1987, the City established the Risk Management Fund (an internal service fund) to account for and finance its uninsured risks. The City's risk financing techniques include a combination of risk retention through self-insurance and risk transfer through the purchase of commercial insurance. The Risk Management Fund services all claims for risk of loss, including general liability, property and casualty, workers' compensation, automobile physical damage and bodily injury and sundry other risks. Commercial insurance coverage is provided for each property damage claim in excess of \$750,000 with a cap of \$250,000,000. Settled claims have not exceeded this commercial coverage in any of the past three years. The City also provides medical insurance coverage for all employees and retirees. Employees are required to pay a percentage of the annual cost of the medical plans and the remaining costs are paid by the City's internal service fund.

All funds of the City participate in the program and make payments to the Risk Management Fund based on actuarial estimates and historical cost information of the amounts needed to pay prior and current year claims and to establish a reserve for catastrophic losses. During fiscal years 2001 and 2000, the Utility's share of the City's cost was \$4,761,000 and \$4,542,000, respectively.

12. Commitments and Contingencies:

The City of Baltimore is currently negotiating with the U.S. Department of Justice and the Environmental Protection Agency to curtail possible litigation due to alleged City violations of the Clean Water Act due to past discharges and overflows from the City sewer system. The City is voluntarily entering into a Consent Decree to rehabilitate its aging sewer infrastructure and correct historical overflow mechanisms. The Consent

Decree is one of many the U.S. Department of Justice is and has currently negotiated with major east coast cities with aged sewer and storm water infrastructures. The City is proactively negotiating to ramp up its remedial efforts to address discharge and overflow concerns of the State and Federal regulatory agencies. These efforts are ambitious and the cost of the construction and maintenance are estimated to range between \$500 to \$700 million dollars over the next decade and beyond. The City has committed to financing these remedial efforts through a combination of water and waste water revenue bonds in conjunction with all available State and Federal assistance.
